Tork SmartOne Toilet Roll

Colour: White

Benefit

- Very high capacity rolls: less maintenance
- Single sheet dispensing: reduces your tissue consumption by up to 40%
- Soft tissue with high brightness
- Large sheets for better comfort
- SmartCore feature: the easiest way to extract a core, easier and faster

1150 207 m 2

Description

The Tork SmartOne system (T8) is a unique single sheet dispensing system on a roll, perfectly suited for high to very high traffic locations, even in the most demanding environments.

Tork SmartOne Toilet Roll

Colour: White

Shipping data

Consumer unit

EAN	7322540656145
Pieces	1
Height	134 mm
Width	199 mm
Length	199 mm
Volume	5.3 dm3
Net weight	915 g
Gross weight	925 g

Transport unit

EAN	7322540656152
Pieces	6
Consumer units	6
Material	Plastic
Height	134 mm
Width	398 mm
Length	597 mm
Volume	31.8 dm3
Net weight	5.49 kg
Gross weight	5.59 kg

Tork SmartOne Toilet Roll

Colour: White

Environmental

Content

Virgin Pulp

Recycled fibres

Chemicals

Material

In the tissue process both virgin fibres and recovered paper are being used. In the process it is a matter of finding an efficient solution where both virgin fibres and recovered paper play a role. Different fibres demand different processes and this determines the end product properties, and makes the fibre type (recovered or virgin) less important.

The environmental benefits and economic feasibility of recovered paper as a raw material source depend on its availability, transport distance and the quality of the collected material.

Bleaching of fibres

Bleaching is a cleaning process of the fibres and the aim is to achieve a bright pulp, but also to get a certain purity of the fibre in order to achieve the demands for hygiene products and in some cases to meet the requirements for food safety. There are different methods used today for bleaching ECF (elementary chlorine free(where chlorine dioxide is used, and TCF (totally chlorine free) where ozone, oxygen and hydrogen peroxide is used.

Chemicals

The chemicals used in the process as well as the functional chemicals are assessed from an environmental, occupational health and safety and product safety point of view .

The used functional chemicals are:

Dry strength agent

Dye

Fixing agents

Fluorescent whitening agent

Glue

Softeners

The process chemicals are:

Antipitch

Protection agent

Yankee coating

Defoamer

Dispersing agents and surfactants

pH and charge control

Retention aids

Broke treatment chemicals

Drainage aid

Tork SmartOne Toilet Roll

Colour: White

Packaging

Fulfilment of Packaging and Packaging Waste Directive (94/62/EC): Yes

Food contact: No

Environmental label

This product has EU ecolabel.

Date of issue : 2011

Revision date 2015-06-30

Production

Material produced and converted at Hondouville mill, France, certified according to ISO 9001 : 2008 & ISO 14001 : 2004

Destruction

TOILET PAPER product is suitable to be taken care of in the normal sewage system of the community.
