

SAFETY DATA SHEET Revision 3

Spa Revive

1. Identification of the substance/preparation and of the company/undertaking

1.1 Product Identifier Spa Revive

1.2 Relevant Identified uses of the substance or mixture and uses advised against

Uses: Disinfectant and Clarifier

1.3 Details of the supplier of the safety data sheet

Company: Complete Pool Controls Ltd

Unit 2, The Park Stoke Orchard Bishops Cleeve

Gloucestershire GL52 7RS

Telephone: +44 (0) 8712 229081 Fax: +44 (0) 8712 229083

E-mail: sales@cpc-chemicals.co.uk

1.4 Emergency Telephone

Tel: +44 (0) 8712 229081 (office hours) +44 (0) 3712 229084 (outside of office hours)

2. Hazard Identification

2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008

Skin Corrosion 1A H314 Aquatic Chronic 1 H410 STOT 3 H335

For the full text of the H statements mentioned in this section see Section 16.

Most important adverse effects

Human Health: See section 11 for toxicological information. Physical & Chemical Hazards: See section 9 for toxicological information. Potential environmental effects: See section 12 for toxicological information.

2.2 Label elements

Labelling according to Regulation (EC) No 1272/2008

Hazard statements: H272: May Intensify fire; oxidiser

H334: May cause allergy or asthma symptoms or breathing difficulties if inhaled

H410: Very toxic to aquatic life with long lasting effects

H302 + EUH031: Harmful if swallowed; Contact with acids liberates toxic gases

H335: May cause respiratory irritation

Signal word: Danger

Hazard pictograms:

Warning! Do not use together with other products. May release dangerous gases (chlorine).

P221: Take any precaution to avoid mixing with combustibles

P210: Keep away from heat/sparks/open flames/hot surfaces - No smoking

P285: In case of inadequate ventilate wear respiratory protection

P305+351+338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and

easy to do. Continue rinsing

P405: Store locked up.

Hazardous components which must be listed on the label

sodium dichloroisocyanurate Dihydrate and disodium peroxide sulphate

2.3 Other Hazards No other information is available.

3. Composition/information on ingredients

3.1 Mixture Mixture of substances listed below with non hazardous additions

Index No	Cas No	EC No.	%	CLP Phrases				
sodium dichloroisocyanurate Dihydrate,								
613-030-01-7	51580-86-0	220-767-7	25-50%	H400: H410: H302: H319 : H335				
disodium peroxide sulphate								
-	7775-27-1	231-890-1	2.5-10%	H272:H334:H302H315: H319: H317: H335				

Additional information: For the wording of the listed risk phrases refer to section 16.

4. First Aid measures

4.1 Description of first aid measures

General Advice: Symptoms of poisoning may even occur after several hours; therefore medical observation

for at least 48 hours after the accident

If inhaled: Supply fresh air and to be sure call for a doctor. In case of unconsciousness place patient

stably in side position for transportation

In case of skin contact:

Call a doctor immediately. Immediately wash with water and soap and rinse thoroughly

In case of eye contact: Rinse immediately with plenty of water, also under the eyelids, for at least 15

minutes. Consult an eye specialist immediately.

If swallowed: Rinse out mouth and then drink plenty of water. Call for a doctor immediately.

Do not give anything by mouth to an unconscious person. Do NOT induce vomiting.

Call a physician immediately.

4.2 Most important symptoms and effects, both acute and delayed No relevant information

4.3 Indication of immediate medical attention and special treatment needed

Treatment Treat Symptomatically.

5. Fire fighting measures

5.1 Extinguishing media:

Suitable media: Water, Water Spray, carbon dioxide

Unsuitable media: Extinguishing powder, Foam, Water with full jet

5.2 Special hazards arising from the substance or mixture

Specific Hazards during fire Formation of toxic gases is possible during heating or in case of fire.

In case of fire, the following can be released: Nitrogen oxides (NOx); Hydrogen chloride

(HCI); Chlorine; Nitrogen trichloride

5.3 Advice for fire-fighters

Fire-fighters should wear full protective clothing and self-contained breathing apparatus

Special protective equipment (SCBA). Thoroughly decontaminate fire-fighting equipment including all fire fighting

wearing apparel after the incident.

Further Information: Cool endangered receptacles with water spray.

Collect contaminated fire fighting water separately. It must not enter the sewage system

6. Accidental release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions: Use personal protective equipment. Provide adequate ventilation.

Avoid contact with skin and eyes. Do not breath dust.

For personal protection see section 8.

6.2 Environmental precautions

Environmental precautions: Do not allow to enter sewers/ surface or ground water.

Inform respective authorities in case of seepage into water course / sewage system.

Keep contaminated washing water and dispose of appropriately

6.3 Methods and materials for containment and cleaning up

Cleaning up Dispose of contaminated material as waste according to item 13.

Ensure adequate ventilation.

Do not flush with water or aqueous cleansing agents

6.4 Reference to other sectionsSee Section 7 for information on safe handling

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information

7. Handling and storage

7.1 Precautions for safe handling

Safe handling Store in cool, dry place in tightly closed receptacles. Provide suction extractors if dust is

formed. Restrict the quantity stored at the work place. Do not refill residue into storage receptacles. Ensure good ventilation/exhaustion at the workplace. Prevent formation of

dust.

Hygiene measures: Keep away from food, drink and animal feeding stuffs. Smoking, eating and drinking

should be prohibited in the application area. Wash hands before breaks and at the end of workday. Take off all contaminated clothing immediately. Avoid contact with skin, eye

and clothing.

7.2 Conditions for safe storage, including any incompatibilities.

Requirements for storage: Store only in the original receptacle.

Advice on protection against fire: Normal measures for preventive fire protection

Further information on storage Protect from humidity and water.

Advice on common storage: Do not store together with acids.

7.3 Specific end usesNo information is available.

8. Exposure control/personal protection

8.1 Control parameters

Components with critical values that require monitoring at the workplace: Observe all workplace limits for dust.

Sodium dichloroisocyanurate, dihydra	ppm	mg/m³	
WEL (Great Britain)	Short-term value:		0.07
	Long Term Value		0.02
	Sen; as -NCO		

Exposure controls

General protective and hygienic measures

Keep away from foodstuffs, beverages and food. Instantly remove any contaminated garments. Wash hands during breaks and at the end of the work. Use skin protection cream for preventive skin protection. Do not eat, drink or smoke while working.

Hand protection

8. Exposure control/personal protection

Personal protective equipment

In case of brief exposure or low pollution use breathing filter apparatus. In case of

intensive or longer exposure use breathing apparatus that is independent of circulating air.

Use breathing protection in case of dust formation.

Wear protective gloves. The selected protective gloves have to satisfy the specifications of EU

Directive 89/686/EEC and standard EN 374.

Suitable Material Nitrile rubber, NBR: Chloroprene rubber, CR: Butyl rubber, BR

Eye protection Tightly sealed safety goggles approved to standard EN 166. Provide eye station

Skin and body protection Protective work clothing

Protective clothing should be selected specifically for the work place.

General advice: General room ventilation plus local exhaust should be used to maintain exposure below

9. Physical and chemical properties

9.1 Information on basic physical and chemical properties

Form: Granules
Colour: White
Odour: Like chlorine

pH @ 20°C: 6

Melting Point 250°C

Bulk Density @ 20°C: 1000 kg/m³

Water solubility: 250 g/l

Ignition temperature: 250°C

Decomposition Temperature: > 145°C

Viscosity, kinematic: Not Applicable

Explosive properties: Product is not explosive.

Oxidising properties: Oxidiser
Organic solvents: 0.00%

9.2 Other Information

Solids content 100%

10. Stability and reactivity

10.1 Reactivity

Reactivity Strong exothermic reaction with acids.

10.2 Chemical stability

Chemical stability To avoid thermal decomposition do not overheat.

10.3 Possibility of hazardous reactions

Hazardous reactions Reacts with oxidizing agents, strong alkalis, amines, flammable substances, reducing

agents and reacts with acids releasing chlorine.

10.4 Conditions to avoid

Conditions to avoid No information available.

10.5 Incompatible materials

Incompatible materials Warning! Do not use together with other products. May release dangerous gases

(chlorine)

10.6 Hazardous decomposition products

Haz decomp products Hydrogen chloride (HCI): Chlorine: Nitrogen oxides (NOx)

11. Toxilogical Information

11.1 Information on toxilogical effects

sodium dichlo	1580-86-0			
Route	Species	Test	Value	Units
Oral	Rat	LD50	1400	mg/kg
Dermal	Rabbit	LD50	>5000	mg/kg
Inhalative	Rat	LC50	950	mg/kg
disodium per	7775-27-1			
Oral	Rat	LD50	920	mg/kg
Dermal	Rat	LD50	> 10000	mg/kg
Inhalative	Rat	LD50	> 5.1	mg/kg

Primary irritant effect:

on the skin: No irritant effect on the eye: Irritant effect.

Sensitization: Sensitization possible through inhalation.

Sensitization possible through skin contact.

CarcinogenicNo further information availableMutagenicNo further information available

12. Ecological Information

12.1 Toxicity Very Toxic for fish

disodium peroxodisulphate 7775-27-1				
Species	Test	Value	Units	
daphnia	EC50	133	mg/l	
(Danio rerio (Zebrabärbling))	EC50	4.4	mg/l	
(Selenastrum capricornutum (Grünalge)	IC50	33	mg/l	

12.2 Persistence and degradability

Persistence and degradability No further relevant information

12.3 Bioaccumlative potential

Bioaccumlative potential No further relevant information

12.4 Mobility in soil

Mobility in soil No further relevant information

12.5 PBT and PvB assessment

PBT and PvB: Not applicable

12.6 Other adverse effects Water hazard class 2 (German Regulation) (Self-assessment): hazardous for water

Do not allow product to reach ground water, water course or sewage system.

Danger to drinking water if even small quantities leak into the ground.

Also poisonous for fish and plankton in water bodies. Very toxic for aquatic organisms.

13. Disposal Considerations

13.1 Waste treatment methods

- -Disposal should be in accordance with local, state or national legislation
- -Do not reuse empty containers without commercial cleaning or reconditioning
- -Do not discharge into drains or the environment ,dispose to an authorised waste collection point

Classification

Waste Codes in accordance with the European Waste catalogue (EWC) are origin-defined. Since this product is used in several industries, no Waste Code can be provided by the supplier. The Waste Code should be determined in arrangement with your waste disposal partner or the responsible authority

14. Transport Information

14.1 UN Number 1505

14.2 UN proper shipping name 1505 SODIUM PERSULPHATE, ENVIRONMENTALLY HAZARDOUS

14.3 Transport hazard class(es)

Class 5.1 Oxidising Substances

Classification Code O2
Hazard label 50
Transport Category 3
EMS No F-A,S-Q
Tunnel E

14.4 Packaging Group III

14.5 Environmental hazardsClassified as environmentally hazardous:

Marine Pollutant

Special marking Fish and tree

14.6 Special precautions for user Warning: Oxidising substances

14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code: SGAV

15. Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for this substance or mixture.

This Safety Data Sheet is provided in compliance with REACH Regulation (EC) No 1907/2006

15.2 Chemical Safety Assessment

A Chemical Safety Assessment has not been carried out

16. Other information

Relevant phrases

H272 May intensify fire; oxidiser.

H302 H302 Harmful if swallowed. H315 Causes skin irritation.

H317 May cause an allergic skin reaction.

H319 Causes serious eye irritation.

H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled.

H335 May cause respiratory irritation.

H400 Very toxic to aquatic life.

H410 Very toxic to aquatic life with long lasting effects

Warning! Do not use together with other products. May release dangerous gases (chlorine).

Use biocides safely. Always read the label and product information before use.
