

Drivematic Delight I Delarge I Deluxe  
Three musketeers for your drive

## Drivematic Delight: the expert in tight areas

Are you looking for a compact ride-on scrubber-drier that can manage a large area in a short amount of time? Then the Drivematic Delight is your ideal cleaning tool. Its minimal turning circle allows you to effortlessly clean tight check-out areas or narrow passageways. One particularly convenient feature: thanks to its slim design, the Delight fits into most passenger lifts after accomplishing its work.

### High area performance for speedy work

The lithium batteries, sold separately, coupled with a practical working width, allow for efficient progress. Once floor cleaning is finished, you can move the machine conveniently into the lift.

### Ramps and inclines? No problem!

Where other machines are unable to pull through, the Delight delivers full performance on inclines of up to 12%. That means steep passages are no big deal.

### Specially developed for tight, narrow areas

Narrow, tight rooms are the Delight's area of expertise. It hardly requires any space when turning. This allows you to clean areas efficiently with your ride-on machine where you could only use hand-guided machines in the past.

## Drivematic Delarge: the specialist in larger spaces

Are you looking for a sturdy ride-on scrubber-drier with an even higher area performance? Then the Drivematic Delarge is the right machine for you. With its ample working width and large fresh water tank, it has the necessary stamina for cleaning large areas.

### For top-level efficiency: Delarge!

The Delarge outperforms many comparable cleaning machines! With a working width of 84 cm and a 120-litre fresh water tank, it allows for efficient cleaning of large rooms or extensive corridors.

### Cleaning without noise and disruption

The Delarge operates extremely quietly thanks to excellent isolation of the suction airflow. As a result, it can be used during daily operation without causing disruptions – this is a key advantage particularly in healthcare facilities.

### Specially designed for machine-based surface disinfection

With the mop attachment sold separately for the Delarge (and Delight) you can distribute disinfectant evenly and economically. This kills microorganisms efficiently.

## Drivematic Deluxe: the luxury version for large areas

The Deluxe offers you a titanic machine with impressive power and stamina! This is a real high performance machine for large areas, true to the motto "More is more". The luxury model in the Drivematic family scrubs like a pro for four hours, helps with sweeping and handles steep inclines. But the true luxury comes with the convenient extras.

### First-class efficiency

With a high-capacity 200-litre fresh water tank, a battery life of up to four hours and efficient progress at 9 km/h, large areas in car parks, warehouses, megastores or airports will be sparkling clean in record time. The Deluxe can also master inclines of up to 20% (version with all-wheel drive)!

### Maximum safety for operator and passers-by

The machine is immediately visible to passers-by thanks to the orange safety warning light and an LED front light. A steel impact protector and safety strap complete the safety equipment.

### Clever helper right on board

Round off your Deluxe with practical cleaning aides: A spray gun and manual nozzle sold separately help you to easily and thoroughly clean spots that can't be reached by machine, such as corners, edges and areas under benches.

# Drivematic ride-on scrubber-driers: three musketeers with different areas of expertise

More comfort, security and maximum efficiency: the three Drivematic ride-on scrubber-driers from Wetrok offer all that and much more. Whether in narrow supermarket aisles, extensive corridors or large warehouses, the models from the Drivematic series ensure perfectly clean floors. Select the model of your choice now.

**Drivematic Delight**  
Expert in tight areas

**Drivematic Delarge**  
Specialist in larger spaces

**Drivematic Deluxe**  
Luxury version for large areas

## Highlights for added comfort

All models feature the following impressive extras:

### Easy to use

Thanks to a self-explanatory control panel, the machines are easy and intuitive to operate, even for new users.

### Ergonomic seat

The models in the Drivematic series feature a low access height, a comfortable seat and guarantee an optimal seating position.

### Effortless brush change

No dirty hands: Brush change is carried out conveniently at the push of a button, and the pads or brushes are replaced or ejected automatically.

### Practical refilling

Quick-Refill and the integrated hose coupling allow you to fill the tank with a normal hose. The water supply shuts off automatically once the maximum fill level is reached.

## Low dosage

With the dosing system sold separately, you can ensure an optimal ratio of water to chemicals at all times. This will benefit the environment, tread safety, and your budget.
