

Plum Hand disinfection wipes 85%

Disinfection Wipe for Hands

Single pack wipes for easy and effective hand disinfection

Application

Can be used in all situations where hand disinfection is needed. Especially suitable for use in the healthcare sector for patient care in hospitals, nursing homes, clinics etc. Hands are our biggest source of infection. Frequent hand washing and hand disinfection according to guidelines significantly reduces the risk of spreading infection. Single packed wipes, delivered in a practical table display.

Product properties

Alcohol-based hand sanitising wipes with antimicrobial effect. Soft wipes made of viscose. They measure 195 x 195 mm.

Effectively reduces vegetative bacteria, yeasts and viruses (including Coronavirus) from hands, minimising the spread of infection.

Contains 85% denatured ethanol. Denatured with 6% IPA. Contains glycerol to prevent drying of the skin. Unscented. Meets the requirements of EN14885. CEI assessed.

Documented efficacy:

- EN1500 Bactericidal activity at 30 sec. contact time
- EN13727 Bactericidal activity at 30 sec. contact time
- EN13624 Yeasticidal activity at 30 sec. contact time
- EN14348 Mycobactericidal activity at 30 sec. contact time
