

Kiilto Active Dip

Soaking Detergent

Soaking and preliminary washing agent which bleaches the dishes. Non-chlorine.

Application

Soaking and preliminary washing agent for removal of difficult food dirt, stains and bleaching of discolouration. Removes also coffee and tea stains. For steel dishes and cutlery as well as for porcelain and plastic dishes. Also for cleaning of the internal parts of the dishwashing machine.

Product properties

Low-foaming, effective and non-dusting powder which brightens and bleaches the dishes. The detergent do not turn melamine plastic to yellow. Decoloured stains can be bleached even in under +40 °C degree.

Instructions for use

Preliminary washing and soaking (removal of burned or decoloured dirt):

Fill the soaking basin with 20-40 °C water and dissolve 1-10 ml of powder per 1 litres of water. Soak for 15-30 minutes.

Bleaching of blushes and stains (starch stains): Dissolve 30 ml per 1 l of +60 °C water and place the dishes in the basin for 30 minutes. Rinse well or wash in the dishwashing machine after soaking.

Cleaning of dishwashing machine:

Add 0,5 % (500 ml/100 l) powder to each washing container before emptying the machine. Let the machine to work for 5-10 min., and scrub the upper part of the machine with a long brush and 1 % Active Dip solution, 10 ml per 1 litres of water, and then empty the containers and rinse well.

Note

Use suitable protective clothes, protective gloves and protection for the eyes or face.

Composition

Ingredient		Effect
Phosphates	5-15 %	Softens the water and increases the washing effect.
Sodium metasilicate	5-15 %	Increases the washing effect and maintains the pH level favourable for washing.
Oxygen based bleach (sodium percarbonate)	15-30 %	Intensifies the washing, bleaches stains and disperses muddy marks on dishes.
Corrosion inhibitor		Prevents corrosion and darkening.

Solution pH

11.0 alkaline

Storage

Storage in dry storage. The effect remains 3 years from the date of manufacture.

Appearance and scent

White powder

Country of manufacture

FINLAND

User and environmental safety

The raw materials are environmentally friendly. Empty, rinsed containers can be recycled as material or as energy. The transport packaging is recyclable, unbleached corrugated cardboard.
