

Kiilto Pro Universal Probio

Probiotic All Purpose Cleaner

Application

For manual cleaning of hard surfaces in offices, hotels, schools, day care centres, as well as nursing homes and hospitals. Kiilto Pro Universal Probio can also be used for daily cleaning in sanitary facilities.

Not intended for surfaces in contact with food. Not suitable for spray applications.

Product properties

Probiotic cleaning agents offer a different perspective on daily cleaning. Kiilto Pro Universal Probio provides immediate cleanliness and removes the dirt on the surfaces. Probiotics remain effective for a long time between cleanings. This enables a healthier premises for visitors.

Kiilto Pro Universal Probio is a probiotic product, which means that during cleaning, beneficial microbes are introduced onto the surfaces. Probiotics take control of surfaces by outcompeting pathogenic microbes for nutrients (dirt) and living space. Regular use of probiotic cleaning agents transforms the microbial population growing on surfaces into a stable microbiota, that is safe for health and the environment.

Kiilto Pro Universal Probio contains a complex mix of probiotics that are very active in the production of all kinds of enzymes, enabling them to tackle a wide range of organic grime. With regular use, a deep cleansing effect is achieved. Probiotic enzymes break down large dirt molecules into smaller ones, making them more readily removable through repeated cleaning. More dirt is removed, a deeper level of hygiene is achieved, and any unwanted odours are removed.

Instructions for use

Start using the product with the initial cleaning dosage on the first cleaning session. Afterward, continue with the daily cleaning dosage.

Shake well before use. Prepare a solution for one day's use. Moisten a cloth or mop with the solution and wipe surfaces clean. Use a moist method. Do not rinse surfaces.

If necessary to occasionally use alkaline, acidic, or disinfectant cleaning agents, repeat the initial treatment and then continue with the daily cleaning dosage.

Initial cleaning or one-time treatment: 30 ml of Kiilto Pro Universal Probio per 1 l of water.

Daily cleaning: 10 ml of Kiilto Pro Universal Probio per 1 l of water.

Note	The microbes used in Kiilto Pro products are probiotic bacteria which have been categorized as safe to people. They are naturally found and have been utilized widely for decades in food industry, production of feedstock, alternative medical care, and production medicinal substances and industrial enzymes.
