Strongly Alkaline Foam Detergent

Strongly alkaline foaming detergent for hygienic washing in the food industry. Removes efficiently grease and protein dirt.

Application

For special hygienic washing in the food industry. For work surfaces, floors, walls, machines and conveyors.

Product properties

The foaming detergent with an extremely good grease- and protein-removal capability. Amphoteric surfactant improves hygienic cleanliness. Due to the organic base, complexation agent and diverse surfactant composition the product effectively emulsifies greasy and oily dirt. The product can be easily rinsed from surfaces, is readily biodegradable and is a material-friendly substance. Is suitable to be used in most foaming devices. Does not contain chlorine compounds.

Instructions for use

1. Preliminary rinsing with lukewarm water (approx. 30 °C)
 2. Foam up the washing solution on the surface. Allow to work on the surface for 10 - 20 minutes (washing temperature 20 - 55 °C).
 3. Rinse off the dissolved dirt and the foam using lukewarm or warm water.
- Reference dosage: 2 - 5 %, depending on the level of griminess of the surface.

Note

Remember the safe use of biocides. Always read label and safety data sheet carefully before use. Concentrated washing solution may darken aluminium surfaces.

Composition

Ingredient		Effect
Amphoteric surfactants	< 5%	Improves hygienic cleanliness
Non-ionic surfactants	5 - 15%	Removes dirt and lowers surface tension
EDTA	< 5%	Softens water and enhances washing efficiency.
Sodium hydroxide	5 - 15%	Emulsifies grease and disperses dirt

Product pH

13.0 strongly alkaline

Solution pH

13.0 strongly alkaline

Storage

Store in a cool, dry place at a temperature of over 10°C.

Appearance and scent

Clear liquid

Country of manufacture

FINLAND

User and environmental safety

Surfactants in the product are biodegradable. Clean, empty packaging materials can be recycled environmental safety or used in energy production.
