Rinse-aid

Rinse aid developed particularly for soft and medium-hard water and plastic dishes.

Application	Rinse aid for automatic dishwashing in soft and medium-hard water.		
Product properties	Speeds up the drying of dishes and prevents droplet formation in hard water. Particularly good in drying plastic dishes. Effectively prevents the forming of limestone deposit. As a neutral product, it is safe to use. Increases cleaning effect due to its excellent dispersion ability.		
Instructions for use	Dosed with an automatic rinse aid dispenser, approx. 0.1 ml/1 litre of rinsing water. The rinsing temperature should be 80–85°C.		
Note	Limestone deposits may be form in very hard water conditions, which requires limestone removal whenever necessary.		
Composition	Ingredient		Effect
	Non-ionic surfactants	15-30 %	Reduces the surface tension of the water, prevents the forming of foam. Moistens dirt.
	Dispersant	< 5 %	Prevents the forming of limestone deposits in dishwashers rinsing part, protects the parts of the machine from corrosion. Increases cleaning efficiency.
	Colouring agent		
	Preservatives		
Other composition	non-ionic tensides 15-30%, dispersing agents <5%, colour		
Product pH	7.0 neutral		
Solution pH	7.0 neutral		
Storage	Must be stored in over +5°C. Shelf life 5 years.		
Appearance and scent	Transparent, red unscented liquid		
Country of manufacture	FINLAND		
User and environmental safety	The ingredients are rapidly biodegradable in wastewater treatment. Empty rinsed containers can be reused as material or for energy. The transport packages are recyclable brown corrugated board.
